

G. RUSHITHA

rushithagurramkonda@gmail.com | 9032888595 | VIT Chennai Campus, Vandalur-Kelambakkam

PROFILE

Pre-Final year at VIT Chennai pursuing a B.Tech in Computer Science Engineering, with strong interests in machine learning, explainable AI (XAI) and Deep learning. Experienced in building end-to-end ML pipelines and research-driven projects, with demonstrated ability to analyze model performance, communicate technical findings, and collaborate effectively in team environments.

EDUCATION

B.Tech in Computer Science Engineering, Vellore Institute of Technology (VIT), Chennai 2024 – 2028

Higher Secondary Education (Class XII), Laurel High School, Rajahmundry 2022 – 2024

PROJECTS

An Explainable Multi-Model Deep Learning Framework for Brain Tumor MRI Classification Using Transfer Learning and Multi-XAI Fusion

- Designed and compared three deep learning architectures — EfficientNetB0, ResNet50, and a custom CNN — using transfer learning for multi-class brain tumor MRI classification.
- Applied and cross-validated four XAI methods (Grad-CAM, SHAP, Integrated Gradients, LIME) to interpret and explain model predictions.
- Proposed two novel evaluation metrics, an Inter-XAI Agreement Score and a Clinical Reliability Index, to quantify explanation consistency and clinical trustworthiness across models.
- Authored a full IEEE-formatted research paper (33 references) documenting the methodology, experimental results, and multi-XAI fusion approach.

Multimodal Heart & Lung Disease Detection

- Built a multimodal deep learning system (CNN + ResNet18 in PyTorch) achieving up to 98.79% accuracy across four disease classification tasks.
- Analyzed performance gaps across architectures to guide model selection and improvement strategies.

SmartVoyage — Full-Stack Travel Planning App

- Developed a full-stack web application for itinerary planning, combining a dynamic frontend with backend trip-management logic.

AquaAlert — Apartment Water Management System

- Built a full-stack app (Node.js, Express, MySQL) with a complaint portal, live tank monitoring, and maintenance tracking; performed database normalization analysis.

PROFESSIONAL EXPERIENCE

Social Media Management

- Managed club social media accounts and created engaging posts.
- Collaborated on a social media reel, including scripting and content planning.
- Assisted in promoting events and increasing online engagement.

SKILLS

Technical: Python, C, C++, Java, HTML, CSS, PyTorch, Data Structures & Algorithms, Machine Learning, XAI (Grad-CAM, SHAP, LIME)

Soft Skills: Communication, Team Collaboration, Analytical Thinking

Tools: Canva, Instagram Insights

LANGUAGES

English, Hindi, Telugu

INTERESTS

Creating content, designing & art, reading books and articles, participating in campus events and clubs
